

Correction to the UVPI

August 29, 2022

Research Center for Economic and Social Risks

The UVPI between June 21, 2021 and August 1 2022 have been corrected as follows:

1. The Reason for the Correction

In the UVPI calculations, we combine the (1) sales data and (2) portion data for each product. During the process, the merger had not been conducted appropriately.

2. Effects of the Correction

The UVPI between June 21, 2021 and August 1 2022 have been corrected. The figures below show the differences in UVPI before and after the correction.

Please note that POS-CEI, POS-CPI, POS-CQI and POS-CTI are not affected by the correction.
